

ZONE 9 - East Side of the River

ZONE CAPTAIN INFO

14th Annual Basura Bash, 2008

Your Responsibilities:

1. Act as a source of information for people in your zone.
2. Carry a mobile phone for communication with the command center at Mission County Park. Contact the Park in the event of an emergency, if you need more trash bags, or if you need assistance removing large objects at **(210) 534-8833**.
3. **Ensure that trash bags are taken to the Waste Management Collection Station. All trash bags must be transferred directly to the pickup truck or to the Waste Management Collection Station (described below). Recyclables are to be placed in blue bags.**
4. Ensure that each volunteer in your group is provided with a copy of the Safety Awareness sheet attached to the initial registration packet and that the volunteers follow safe practices such as wearing long pants, shirts, gloves and staying out of the water.

Zone Boundaries:

Upstream - Steves Ave bridge

Downstream - Mitchell St bridge

Parking And Access To Your Zone: Parking is available and the zone is accessible at both the upstream and downstream ends. At the upstream end, park under the Hwy 90/I-10 overpass. You'll go through the TxDOT gate that will be open for us the day of the event. At the downstream end, you can park in the parking lot for Art's Lounge which is on the west and downstream side of the Mitchell St bridge.

Your Waste Management Collection Stations: (look for the bamboo flagpoles) ****ALL TRASH BAGS MUST BE PLACED IN THE COLLECTION STATION AND TIGHTLY TIED**.**

- Upstream end - under the Hwy 90 overpass
- Downstream - just downstream of the Mitchell St bridge in the parking lot of Art's lounge

Pickup Support: A single pickup truck will be providing support to Zone 9. But he may not be able to access the entire zone. Please make sure that trash is delivered to the areas accessible by the pickup or to one of the Waste Management Collection Stations. The pickup will be driving up and down the accessible portion of the Riverbank allowing volunteers to place filled trash bags and other objects in the pickup. The driver will assist with the collection of large objects. The pickup will have extra trash bags, drinking water, and a first aid kit.

The pickup driver will have radio communication with Mission County Park. If you need to contact your pickup driver, call the command center at 872-8859 on your mobile phone; the dispatcher will transfer your message to the driver.

Training Session/T-shirt Pickup: Please be prepared to arrive at Mission County Park with the signatures of your volunteers. At that time, you will be given the number of t-shirts you need and a quick training of the safety issues. You will take the t-shirts back to your zone where you will meet your group, pass out shirts, and go over the safety issues. **Arrive early enough to do all of this and meet your group at your zone before they start.**

THANKS FOR YOUR HELP!
