

ZONE 16 - West Side of the River

ZONE CAPTAIN INFO

14th Annual Basura Bash, 2008

Your Responsibilities:

1. Act as a source of information for people in your zone.
2. Carry a mobile phone for communication with the command center at Mission County Park. Contact the Park in the event of an emergency, if you need more trash bags, or if you need assistance removing large objects at **(210) 534-8833**.
3. **Ensure that trash bags are taken to the Waste Management Collection Station. All trash bags must be transferred directly to the pickup truck or to the Waste Management Collection Station (described below). Recyclables are to be placed in blue bags.**
4. Ensure that each volunteer in your group is provided with a copy of the Safety Awareness sheet attached to the initial registration packet and that the volunteers follow safe practices such as wearing long pants, shirts, gloves and staying out of the water.

Zone Boundaries:

Upstream - Lorraine St which is marked with 3 big diamond shaped signs
Downstream - Mission Rd bridge

Parking and Access To Your Zone: Parking and access is available at either end of the Zone.

Your Waste Management Collection Station: At the end of Lorraine St (upstream end of the Zone). Look for the bamboo flagpole. ****ALL TRASH BAGS MUST BE PLACED IN THE COLLECTION STATION AND TIGHTLY TIED**.**

Pickup Support: A single pickup truck will be supporting Zones 14 and 16. If it's rainy, the pickup will not be able to access the downstream portion of Zone 16. If this is the case, please make sure all trash bags are delivered to a location where the pickup can get to them, or to the Garbage Gobbler Collection Station on Lorraine St.

The pickup will be driving up and down the accessible portions of the Riverbank allowing volunteers to place filled trash bags and other objects in the pickup. The driver will assist with the collection of large objects. The pickup will have extra trash bags, drinking water, and a first aid kit. The pickup driver will have radio communication with Mission County Park. If you need to contact your pickup driver, call the command center at 872-8859 on your mobile phone; the dispatcher will transfer your message to the driver.

Training Session/T-shirt Pickup: Please be prepared to arrive at Mission County Park with the signatures of your volunteers. At that time, you will be given the number of t-shirts you need and a quick training of the safety issues. You will take the t-shirts back to your zone where you will meet your group, pass out shirts, and go over the safety issues. **Arrive early enough to do all of this and meet your group at your zone before they start.**

THANKS FOR YOUR HELP!
